Amundi FTSE Italia PMI PIR 2020 UCITS ETF Acc

ISIN code: (C) FR0011758085

This Fund is managed by Amundi Asset Management, an Amundi Group company

Objectives and investment policy

The Fund is a passively managed index-tracking UCITS. The Fund's management objective is to replicate, both upwards and downwards, the change in the EUR-denominated FTSE Italia PMI Net Tax Index (net dividends reinvested) (the "Benchmark Index"), representative of the performance of small- and mid-cap stocks listed on the Borsa Italiana, while minimising the tracking error between the Fund's performance and that of the Benchmark Index.

The tracking error anticipated under normal market conditions is indicated in the Fund's prospectus.

Sub-fund stocks are included in the list of investments eligible for the "Piano Individuale di Risparmio a lungo termine" (PIR) scheme, set up before 31 December 2018 or with effect from 01 January 2020, in accordance with the 2017 Italian Finance Law (Law no. 232 of 11 December 2016) as amended and supplemented (the "PIR Law").

The Sub-fund shall invest at least 70% of its assets in financial instruments, regardless of whether they are traded on a regulated market or a multilateral trading facility, issued by or concluded with companies domiciled in Italy, or in a member state of the European Union or the EEA with a permanent establishment in Italy.

At least 25% of these financial instruments, representing 17.5% of the total value of the Sub-fund's assets, shall be issued by companies that do not belong to the FTSE MIB Index or any other equivalent index. At least 5% of these financial instruments, representing 3.5% of the total value of the Sub-fund's assets, shall be issued by companies that do not belong to the FTSE MIB Index or FTSE Italia Mid Cap Index or any other equivalent index.

The Sub-fund may not invest more than 10% of the total value of its assets in financial instruments issued by or concluded with a single company, or companies belonging to the same group, or in cash deposits.

The Sub-fund may not invest in companies domiciled in countries that do not have an adequate information exchange agreement with Italy. For the Sub-fund to be eligible for the PIR Law for a calendar year, these investment restrictions shall be respected for at least two-thirds of each calendar year with effect from 01 January 2020.

More detailed information on FTSE indices is available on the FTSE website (www.ftserussell.com).

The Fund aims to achieve its objective through direct replication, i.e. by investing primarily in the components of the Benchmark Index.

In order to optimise the replication of the Benchmark Index, the Fund may use a sampling technique as well as temporary sales of securities.

The Fund's net profit as well as its net realised capital gains are automatically reinvested.

You may resell your units during the trading hours of the various stock exchanges, provided that the Market Makers can maintain market liquidity.
