EQUITY ■

Objective and Investment Policy

The Fund is an index-tracking UCITS passively managed. The investment objective of the Fund is to track both the upward and the downward evolution of the FTSE 100 Total Return Index (net dividends reinvested) (the "Benchmark Index") denominated in GBP in order to offer an exposure to the performance of the 100 largest companies traded on the London Stock Exchange that pass screening for size and liquidity-while minimizing the volatility of the difference between the return of the Fund and the return of the Index ("Tracking Error"). The anticipated level of tracking error in normal market conditions is indicated in the prospectus. Additional information about the Benchmark Index can be found at www.ftse.com. The Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the "FDI"). The Fund may also invest in a diversified portfolio of international equities, whose performance will be exchanged against the performance of the benchmark Index via the FDI. Updated composition of the Fund holdings is available on www.amundiETF.com. In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed. In order to hedge the currency of the share against the currency of the index, the Fund uses a hedging strategy which reduces the impact of changes between the currency of the Index and the currency of the share class.

Performances from 30/09/2016 to 30/09/2026 (Source : Fund Admin)

Risk indicators (Source: Fund Admin)

	1 year	3 years	Inception to date *
Portfolio volatility *	12.25%	11.08%	14.25%
Benchmark volatility	12.24%	11.07%	14.24%
Ex-post Tracking Error	0.03%	0.02%	0.03%
Sharpe ratio	1.20	0.99	0.47

* Volatility is a statistical indicator that measures an asset's variations around its average value. For example, market variations of +/- 1.5% per day correspond to a volatility of 25% per year. The higher the volatility, the higher the risk. The Tracking Error indicator measures the performance's difference between the fund and the benchmark

Benchmark	25.57%	9.92%	8.80%	5.91%	18.87%	-10.19%	19.51%	-7.33%	12.92%	-
Spread	-0.40%	-0.51%	-0.62%	-0.59%	-0.70%	-0.56%	-0.61%	-0.42%	-0.42%	-

* Source : Amundi. The above cover complete periods of 12 months for each calendar year. **Past performance is no predictor of current and future results and does not guarantee future yield**. Any losses or gains do not take into consideration any costs, commissions and fees incurred by the investor in the issue and buyout of the shares (e.g. taxes, brokerage fees or other commissions deducted by the financial intermediary). If performance is calculated in a currency other than the euro, any losses or gains generated can thereby be affected by exchange rate fluctuations (both upward and downward). The discrepancy accounts for the performance difference between the portfolio and the index.

Risk & Reward Profile (SRRI) (Source: Fund Admin)

Lower risk, potentially lower rewards
Higher risk, potentially higher rewards

The SRRI represents the risk and return profile as presented in the Key Investor Information Document (KIID). The lowest category does not imply that there is no risk. The SRRI is not guaranteed and may change over time.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the MULTI UNITS LUXEMBOURG prospectus.
