The Bloomberg Euro Treasury Green Bond Tilted Index is based on the Euro Treasury 50bn Bond Index (the “**Parent Index**”), and measures the performance of investment grade, EUR-denominated, fixed-rate government debt. The Index is tilted such that, on a rebalancing date, at least 30% of the Index's market value is allocated to securities classified as Green Bonds and the remaining percentage is allocated to non-Green Bonds, and the risk profiles of the Index and the Parent Index are comparable.

These changes will be reflected in the next visa-stamped prospectus.
