Index Data (Source : Amundi)

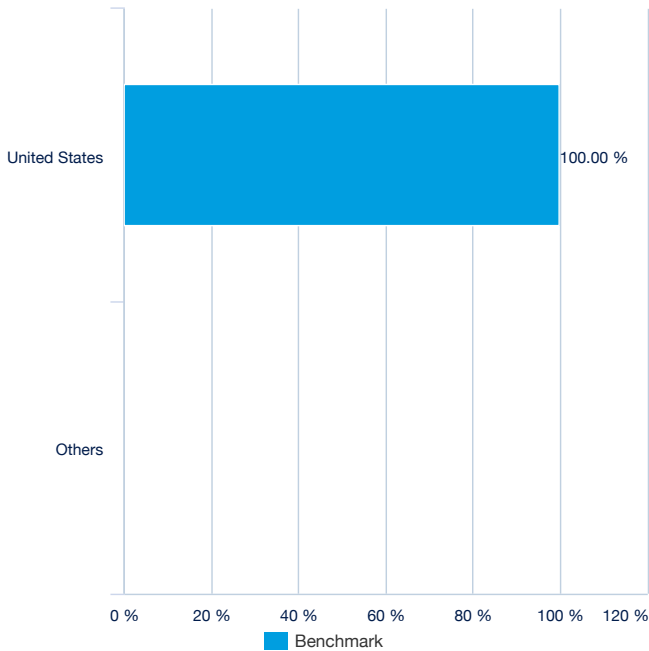

Description of the Index

The Index is an equity index and a free-float capitalization-weighted index, representative of the performance of the 500 leading U.S. companies listed in the United States. To be included, the companies must be domiciled in the United States, have an unadjusted market cap of USD 18.0 billion or greater, and must have a float-adjusted market cap of at least 50% of the unadjusted minimum market cap threshold. Each stock of the Index is weighted according to the free float-adjusted market capitalization. The Index is a net total return index, meaning that dividends net of tax paid by the index constituents are included in the Index return.
