Objective and Investment Policy

This Sub-Fund is passively managed. The objective of this Sub-Fund is to track the performance of MSCI Pacific ex Japan SRI Filtered PAB Index (the "Index"), and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The anticipated level of the tracking error, under normal market conditions, is indicated in the prospectus of the Sub-Fund. The Index is a Net Total Return Index : dividends net of tax paid by the index constituents are included in the Index return. MSCI Pacific ex Japan SRI Filtered PAB Index is an equity index based on the MSCI Pacific ex Japan index representative of the large and mid-cap stocks across 4 of 5 developed markets countries of the Pacific region, excluding Japan (as of November 2021) (the "Parent Index"). The Index provides exposure to companies with outstanding environmental, social and governance (ESG) ratings and excludes companies whose products have a negative social or environmental impact. In addition, the Index aims to represent the performance of a strategy that re-weights securities according to the opportunities and risks associated with the climate transition, in order to meet the minimum requirements of the EU Regulation on Paris Agreement Benchmarks (EU PAB). The ESG key issues include mainly carbon intensity. For further information on the exclusions applied by the Index pursuant to the EU Paris-aligned Benchmarks (PAB), please refer to the "Guidelines on funds' names using ESG or sustainability-related terms" section of the Prospectus. The limits of the approach adopted are described in the Sub-Fund's prospectus through risk factors such as Sustainable investment risk. More information about the composition of the index and its operating rules are available in the prospectus and at: [msci.com](https://www.msci.com) The Index value is available via Bloomberg (MXPJSXNE). The exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index. The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

Performances from 14/02/2018 to 31/08/2026 (Source : Fund Admin)

Risk indicators (Source: Fund Admin)

	1 year	3 years	Inception to date *
Portfolio volatility *	13.44%	13.51%	17.08%
Benchmark volatility	13.43%	13.51%	17.09%
Ex-post Tracking Error	0.05%	0.09%	0.22%
Sharpe ratio	0.35	0.34	0.04

* Volatility is a statistical indicator that measures an asset's variations around its average value. For example, market variations of +/- 1.5% per day correspond to a volatility of 25% per year. The higher the volatility, the higher the risk. The Tracking Error indicator measures the performance's difference between the fund and the benchmark

* Source : Amundi. The above cover complete periods of 12 months for each calendar year. **Past performance is no predictor of current and future results and does not guarantee future yield**. Any losses or gains do not take into consideration any costs, commissions and fees incurred by the investor in the issue and buyout of the shares (e.g. taxes, brokerage fees or other commissions deducted by the financial intermediary). If performance is calculated in a currency other than the euro, any losses or gains generated can thereby be affected by exchange rate fluctuations (both upward and downward). The discrepancy accounts for the performance difference between the portfolio and the index.

Risk & Reward Profile (SRRI) (Source: Fund Admin)

Lower risk, potentially lower rewards
Higher risk, potentially higher rewards

The SRRI represents the risk and return profile as presented in the Key Investor Information Document (KIID). The lowest category does not imply that there is no risk. The SRRI is not guaranteed and may change over time.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Index Solutions prospectus.

EQUITY

Socially Responsible Investment (SRI)

The SRI expresses sustainable development objectives in investment decisions by adding Environmental, Social and Governance (ESG) criteria in addition to the traditional financial criteria.

SRI thus aims to balance economic performance and social and environmental impact by financing companies and public entities which contribute to sustainable development whatever their business sector. By influencing the governance and behaviour of stakeholders, SRI promotes a responsible economy.

Carbon footprint

This indicator measures the portfolio's carbon emissions in metric tonnes of carbon equivalent (tCO2e) per euro million invested.

This is an indicator of the emissions generated by investment in this portfolio.

Definition of scopes :

- **Scope 1** : all emissions that arise directly from sources that are owned or controlled by the company.
- **Scope 2** : all indirect emissions generated by the purchase or production of electricity, steam or heat.
- **Scope 3** : All other indirect emissions, upstream and downstream of the value chain. For reasons of data robustness, Amundi has chosen to use emissions from activities upstream of Scope 3 - Source: Trucost EEI-O model (input/output model extended to the Trucost environment).

Source : The carbon emissions data is supplied by Trucost. It corresponds to companies' annual emissions expressed in tCO2e, which covers the six greenhouse gases defined in the Kyoto protocol whose emissions are converted into global warming potential (GWP) in CO2 equivalent.

Important information

Note on the Fund management company and the fund

Sub-fund of the Luxembourg SICAV Amundi Index Solutions (the 'Sub-fund' or the 'Fund' and the 'SICAV'). The SICAV is an undertaking for collective investment in transferable securities existing under Part I of the Luxembourg law of 17 December 2010, organised as a société d'investissement à capital variable and registered with the Luxembourg Trade and Companies Register under number B206810. The SICAV has its registered office at 5, allée Scheffer, L-2520 Luxembourg. The Sub-fund has been authorised for public sale by the Commission de Surveillance du Secteur Financier of Luxembourg and in France by the AMF. The SICAV has other Sub-funds which are described in the prospectus. Not all sub-funds will necessarily be registered or authorized for sale in jurisdictions of all investors.

The Fund is described in a Key Information Document (KID), or Key Investor Information Document (KIID) for UK investors, and prospectus. The Funds KID, or KIID for UK investors, must be made available to potential subscribers prior to subscription.

The Funds reference material (KIID, prospectus, annual and semi-annual reports) can be obtained from Amundi on request, or obtained via the amundiETF.com website.

In the United Kingdom (the "UK"), this website is being issued by Amundi (UK) Limited, 77 Coleman Street, London EC2R 5BJ, UK. Amundi (UK) Limited is authorised and regulated by the Financial Conduct Authority ("FCA") and entered on the FCA's Financial Services Register under number 114503. This may be checked at <https://register.fca.org.uk/> and further information of its authorisation is available on request. Each fund and its relevant sub-fund(s) under its respective fund range that is referred to in this website (each, a "Fund") is a recognised collective investment scheme for the purposes of Section 264 of the Financial Services and Markets Act 2000 (the "FSMA").

Potential investors in the UK should be aware that none of the protections afforded by the UK regulatory system will apply to an investment in a Fund and that compensation will not be available under the UK Financial Services Compensation Scheme.

Regarding Funds admitted on a regulated market, the listing is subject to a volatility control mechanisms to ensure that the ETF price does not deviate significantly from a reference price set by the listing rules of the relevant regulated market, notably through the implementation of a trading halt mechanism in case of significant deviation from this reference price.

The Fund offers no capital guarantee. Investors may not get back the full amount of their initial investment, particularly in the event that the benchmark index falls. Subscribing to a UCITS may involve risks. Potential investors are advised to read the Funds risk profile, which is described in detail in the prospectus. The amount that is reasonable to invest in the Fund will depend on the personal circumstances of each investor. To determine this amount, investors should take into account their financial situation, personal assets, and current and future requirements, as well as considering their willingness to accept risks or conversely their preference to invest cautiously. Investors are also strongly recommended to sufficiently diversify their investments so as to avoid being exposed solely to the risks of this Fund. Investors should therefore seek advice in this regard from their usual advisors (legal, tax, financial and/or accounting) before purchasing any units of the Fund.

The source of the data contained in this document is Amundi Asset Management unless otherwise stated.

Policy regarding portfolio transparency and warning on secondary market

The policy regarding portfolio transparency and information on the funds assets are available on amundiETF.com. Shares purchased on the secondary market cannot usually be sold directly back to the fund. Investors must buy and sell shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. Investors may pay more than the current net asset value when buying shares and may receive less than the current net asset value when selling them.

« Technical net asset values may be calculated and published for any calendar day (excluding Saturdays and Sundays) that is neither a business day nor a transaction day. These technical net asset values are merely indicative and will not be the basis for purchasing, switching, redeeming and/or transferring shares. »
